GENERAL BAR RESOURCES

This section contains sources for all basic equipment, products, and services necessary to open a bar. Many of these sources are the actual manufacturers and will probably have a local or regional distributor you will be required to buy from, should you decide you want their product. Nevertheless, use these sources to obtain information on products that you may be interested in. it is also recommended that you try to attend a trade show in order to see the actual products and how they work.

BAR OWNER BASIC TRAINING.com

I have spent over 30 years owning and managing bars, as well as serving food, managing employees, as well as customers, and striving to be successful in a business that I enjoyed and survived. Let me help you to start your own bar with all the insight of someone who has been there and done that.

Each manual deals with a topic that will manifest itself very quickly as you start your own dream and make it a reality. You will be surprised, but need not be uninformed. Let me be your mentor and provide some answers to the FAQ of the bar business. Enjoy your dream, be aware of the challenges, and enjoy owning your own bar, as I have.

My Own Bar Manual
